National Electronic Attachment, Inc. and Three Star Dental System
Announce Agreement

Atlanta, Georgia - National Electronic Attachment, Inc. (NEA) and Three Star Dental Systems of Ashland, Oregon, announced today that they have entered into an agreement to offer NEA's FastAttach(system to Three Star Dental System's clients.

As a result of this partnership, Three Star's client dental offices will be able to transmit attachments (x-rays, perio charts, intra-oral pictures, narratives and EOB's) electronically for quicker, more efficient review by Insurance Payors. This new offering to Three Star's clients is a significant benefit as claim processing is accelerated, and the need to duplicate film and mail attachments is eliminated.

"NEA is pleased to enter into this relationship with Three Star and we look forward to registering their dental offices to use our FastAttach(system", states Tom Hughes, CEO of NEA.

Three Star's dental practice management software offers a range of services to cost-effectively meet the needs of the dental office.

NEA, the leader in Internet based solutions for the dental industry, offers systems designed to make the process of insurance submissions and processing as easy as possible for the Patient, the Dental Office and the Insurance Payor.
