National Electronic Attachment, Inc. and CPI Technologies Corporation  
Announces an Agreement

Atlanta, Georgia - June 26, 2001- National Electronic Attachment, Inc. (NEA) of Atlanta, GA and CPI Technologies Corporation, (CPI) based in Palmdale, CA have entered into an agreement to include NEA's FastAttach(tm) system in CPI's Program Director software.

FastAttach(tm) enables a dental office to transmit attachments (x-rays, perio charts, intra-oral pictures, narratives and EOB's), via the Internet, to NEA's repository where Insurance Payors are able to view them, in support of electronic claims. This is a significant benefit for dental offices as FastAttach(tm) accelerates claim processing and eliminates duplicating and mailing attachments.

Program Director is an inclusive clinical, information, and management software designed to fully integrate and internally manage all the programs including diagnostic, information and communications, that make up a dental office system. Program Director's many features include, patient record database, electronic patient scheduling, electronic claims submission and authorization, integration with Hewlett Packard and Epson Scanners and integration with all imaging and digital radiography systems. CPI remains on the leading edge by providing fully comprehensive software for dental practices. By interfacing with FastAttach(tm), CPI users will further benefit by saving time and money in the processing of insurance claims, reducing paperwork and the other costs associated with filing dental claims, and, ensuring prompt payment of claims.

"We are pleased with our new relationship with CPI, it is a great opportunity for both companies as we continue to provide electronic solutions for dental practices. With the addition of CPI to our list of software vendors we continue to lead in the electronic attachment arena," states Tom Hughes, NEA's CEO.

"CPI is delighted to present the interface with NEA's FastAttach(tm) system as a standard component of our Program Director software. Our new relationship with NEA allows our companies to bring clients one important step closer to eventual paperless dental operations," says CPI's CEO, Charles Lewis.

About NEA

NEA, the leader in Internet based solutions for the dental industry, offers systems designed to make the process of insurance submissions and processing as easy as possible for the Patient, the Dental Office and the Insurance Payor.

NEA currently receives over 220,000 hits per month on their web sites.

NEA's FastAttach(tm) enables dental claims attachments to be transmitted, via the Internet, to NEA's repository where insurance companies are able to view the images on NEA's web site, in support of electronic claims. NEA acts as a repository and communication facilitator for electronic attachments (ex., x-rays) to major dental insurance companies including: Ameritas Life Ins. Corp., Aware Dental Services, CIGNA Dental, Delta Dental Plan of KY, Delta Dental Plan of NJ, Delta Dental Plan of TN, Delta Dental Plan of VA, Dental Benefit Providers, Doral Dental USA, Emphesys, Employers Health Ins., Fortis Benefits, Harrington Benefit Services, HumanaDental, JLT Services Corporation (formerly Jardine Group Services), MetLife, Mutual of Omaha, Premera Blue Cross, Randmark, Superior Dental Care, TDC, Inc., TDC, Ltd., and United Concordia Companies.

Visit [www.Fast-Attach.com](http://www.Fast-Attach.com) for additional information.

NEA's DentalClaim.com allows dental providers to verify patient eligibility and detailed plan benefit information, as well as submit claims and encounters, via the Internet. DentalClaim.com is currently utilized by CIGNA Dental Health, Nevada Pacific Dental, Pacific Union Dental and SafeGuard Health Enterprises.
