National Electronic Attachment, Inc. and SoftSense Data  
Announces an Agreement

Atlanta, Georgia - January 25, 2002- National Electronic Attachment, Inc. (NEA) of Atlanta, GA announced today that it has entered into an agreement with SoftSense Data, Inc a dental software development company, with offices in Columbia, SC and Shelby, NC to offer NEA's FastAttach( system to SoftSense Data's clients.

FastAttach(tm) enables a dental office to transmit attachments (x-rays, perio charts, intra-oral pictures, narratives and EOB's), via the Internet, to NEA's repository where Insurance Payors are able to view them, in support of electronic claims. This is a significant benefit for dental offices as FastAttach(tm) accelerates claim processing and eliminates duplicating and mailing attachments.

Softsense Data's Pract-Eze is a comprehensive practice management software system that combines virtually every aspect of running a dental office in one package. Their program efficiently handles many tasks such as electronic scheduling, automatic patient recall, multiple fee schedules, treatment planning and multiple user capability while offering many high-tech solutions such as insurance co-billing and electronic claim filing. By offering FastAttach(tm), SoftSense Data's client dental offices will be able to transmit attachments electronically for quicker, more efficient review by Insurance Payors.

"We are very happy with our relationship with SoftSense Data. The SoftSense product is a leader in dental software applications and NEA is proud to provide electronic attachments to this company," states Tom Hughes, NEA's President and CEO.

"SoftSense Data is very excited that our partnership with NEA allows us to provide a higher level of service to our clients," says Kent Russ, President of SoftSense Data. "FastAttach" takes advantage of the Web, making it faster and easier to process claims. This solution helps to highlight the cost effectiveness of e-claims."

ABOUT NEA

NEA, the leader in Internet based solutions for the dental industry, offers systems designed to make the process of

insurance submissions and processing as easy as possible for the Patient, the Dental Office and the Insurance Payor.

NEA's FastAttach(tm) enables dental claims attachments to be transmitted, via the Internet, to NEA's repository where insurance companies are able to view the images on NEA's web site, in support of electronic claims.
