National Electronic Attachment, Inc. and Dentists Management Corporation Announces an Agreement

Atlanta, Georgia - February 27, 2002- National Electronic Attachment, Inc. (NEA) of Atlanta, GA announced today that it has entered into an agreement with Dentists Management Corporation (DMC) a dental software development company, with offices in Milwaukie, OR to offer NEA's FastAttach(system to the DAISY clients of DMC

FastAttach(tm) enables a dental office to transmit attachments (x-rays, perio charts, intra-oral pictures, narratives and EOB's), via the Internet, to NEA's repository where Insurance Payors are able to view them, in support of electronic claims. This is a significant benefit for dental offices as FastAttach(tm) accelerates claim processing and eliminates duplicating and mailing attachments.

The Daisy System is a comprehensive practice management software system that combines virtually every aspect of running a dental office in one package. Their program efficiently handles many tasks such as electronic scheduling, automatic patient recall, multiple fee schedules, treatment planning and multiple user capability while offering many high-tech solutions such as insurance co-billing and electronic claim filing. By offering FastAttach(tm), the Daisy offices will be able to transmit attachments electronically for quicker, more efficient review by Insurance Payors. Dentists Management Corporation is owned by OREGON DENTAL SERVICE, a Delta Dental Plan, and is the largest dentist used practice management system in Oregon. See www.daisydental.com.

"We are very happy with our relationship with Daisy and DMC. The Daisy product is a leader in dental software applications and NEA is proud to provide electronic attachments to this company," states Tom Hughes, NEA's CEO. "As Daisy establishes itself across the country, many of the Deltas it affiliates with are already clients of NEA".

"Dentists Management Corporation is very excited that our partnership with NEA allows us to provide a higher level of service to our clients," says Dave Novitsky, General Manager of DMC. "FastAttach" takes advantage of the Web, making it faster and easier to process claims. This solution helps to highlight the cost effectiveness of e-claims."

ABOUT NEA

NEA, the leader in Internet based solutions for the dental industry, offers systems designed to make the process of insurance submissions and processing as easy as possible for the Patient, the Dental Office and the Insurance Payor.

NEA's FastAttach(tm) enables dental claims attachments to be transmitted, via the Internet, to NEA's repository where insurance companies are able to view the images on NEA's web site, in support of electronic claims.
