National Electronic Attachment, Inc. Announces
Implementation Of FastAttach Plus Program

Atlanta, Georgia - June 05, 2002 - National Electronic Attachment, Inc. (NEA) of Atlanta, GA announced today the implementation of a new program, FastAttach[®] Plus. FastAttach[®] Plus will feature General Dentists being able to send attachments (x-rays, narratives, perio-charts), to Specialists to view, as well as allowing them to send attachments to insurance Payors as they do now. The specialist will use a unique peer name and password to access the attachments electronically. FastAttach Plus eliminates the need for General Dentists to duplicate, photocopy and mail attachments to specialists. They can simply transmit the attachments through NEA's secure system regardless of the practice management system used by either party to the transaction.

Specialists using FastAttach Plus will only need to provide the General Dentists with their unique peer name to receive attachments electronically. Also as part of the FastAttach[®] Plus program, dental offices will be able to store attachments for their personal use.

"FastAttach Plus is another example of NEA's commitment to provide dentists with the best possible solutions to automate the process of submitting dental claims with attachments, using the Internet" states Tom Hughes, CEO, National Electronic Attachment Inc. NEA, the leader in Internet based solutions for the dental industry, offers systems designed to make the process of insurance submissions and processing as easy as possible for the Patient, the Dental Office and the Insurance Payor.

NEA's FastAttach enables dental claims attachments to be transmitted, via the Internet, to NEA's repository where insurance companies are able to view the images on NEA's web site, in support of electronic claims.
