National Electronic Attachment, Inc. (NEA) and Genesis Dental Software Announces an Agreement

Atlanta, Georgia — National Electronic Attachment, Inc. (NEA) of Atlanta, GA and GENESIS Dental Software, based in Bellevue, Washington, announced today that they have entered into an agreement to offer NEA's *FastAttach*™ electronic insurance claim attachment system to GENESIS Dental Software clients.

FastAttach™ enables a healthcare office to transmit attachments (x-rays, perio charts, intra-oral pictures, narratives and EOB's) via the Internet, to NEA's repository where Insurance Payors can then view this attachment, in support of electronic claims. This is a significant benefit for healthcare offices as *FastAttach*™ accelerates claim processing and eliminates duplicating and mailing attachments.

GENESIS Software provides a comprehensive practice management system that combines virtually every aspect of running a dental office into one package. The program efficiently handles many tasks while offering many high-tech solutions such as insurance co-billing, electronic claim filing, back-office integration and treatment planning and much more.

Thomas Hughes, CEO of NEA, Inc., said, "We are very pleased to announce our relationship with GENESIS Software. GENESIS Software is a leading dental practice management solution and NEA is proud to have been chosen to provide electronic attachments to their users."

Monette McDaniel, Marketing Manager of GENESIS Software, said, "Continuing and expanding our relationship with *FastAttach*™ will benefit GENESIS Software customers with their daily insurance procedures. Working with *FastAttach*™ will allow further elimination of administrative burdens by reducing paperwork and other labor costs associated with filing healthcare insurance claims. By offering *FastAttach*™, GENESIS client dental offices will be able to transmit attachments electronically for quicker, more efficient review by Insurance Payors."
